Last year
321 tonnes of waste was not recycled at halls of residences. The CO_2 emissions from this will be equal to...

driving from *John O'Groats* to *Lands End* **1900** times!

the DIRTY truth

YOUR recycling does make a difference

keep it up!

Last year the University composted

141 tonnes

of food waste

(the equivalent of 25 **African elephants**)

This saved as much carbon dioxide as flying to Australia and back 34 times!

Recycling in the UK saves as much CO_2 as removing...

5 Million

cars from the UK roads every year

recycle
